The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/689,319	Applicant(s) BORISSOV, ANATOLI	
	Examiner Steven J. Ganey	Art Unit 3752	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 6, 21, 22 and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Janach.

Janach discloses a supersonic injector assembly and gaseous fuel engine comprising all the featured elements of the instant invention, note combustion chamber 5; valve arrangement comprising an inlet 11, actuator 18, antechamber 14 and a plurality of supersonic nozzle passages 17 controlled by the actuator.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 3-5 and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Janach.

Janach, has been discussed above, and discloses the instant invention, except for the pressure of the fuel supply. It would have been obvious to one having ordinary skill in the art at

the time the invention was made to supply gaseous fuel at a pressure between 50 and about 150 PSIG as a matter of obvious design choice, since a higher injection pressure would facilitate the spray of the gaseous fuel to mix intensively with the inducted air in the combustion chamber.

Allowable Subject Matter

5. Claims 11-20 are allowed.
6. Claims 7-10 and 25-28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven J. Ganey whose telephone number is 571-272-4899. The examiner can normally be reached on 9:00-5:00; Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kevin Shaver can be reached on 571-272-4720. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
